

Council Meeting

The Council of the Village of Irma met in the Village office on Thursday, May 5th at 8 p.m. full Council present.

The minutes of April 7th, April 20th and April 21st read and adopted as read. Cd.

Mr. Schon reported on the meeting for the purpose of the organization of a Fire Brigade. L. A. Schon was appointed Hon. Fire Chief, J. A. Levitt as Deputy Chief, also recommendations to the Village Council for two six foot ladders, a supply of fire pails and a 40 gallon water tank.

This report was received and read. Moved by Mr. Tripp that Mr. Schon interview Mr. Hutchinson, the Blacksmith, as to the fixing of the Fire Bell, so as to prevent same from turning over, with power to act, also, that the Secretary write the Western Canada Underwriters Association as to the formation of a local Fire Brigade.

The Secretary was instructed to write the Taylor Safe Co., Edmonton that when their traveller is in this district, the Village have a small job to be done to their safe.

The matter of Drainage and Sidewalks on the South side of Third Ave East was taken up and Councilors have power to act on this.

Secretary was instructed to write the Wainwright Hospital re Donald Mathison that from information received, this lad's mother states she will pay this bill of \$17.50.

On suggestion of the Council the matter of Private Sale on 1930 Cavest Sale list be noted that offers can be received for the purchase of Parcels on said list.

Moved by Mr. Foxwell that the bills of Imperial Lumber Co.—Lumber \$400.00, W. Masson—Interim Audit \$35.00, Chas. Wilbraham—April Salary 20.00 be paid. Carried.

Secretary was instructed to write the Old Age Pension Dept. re rent arrears of D. McDougall and the liability of the Village as trustees of the pension.

Moved by Mr. Schon that the resignation of Chas. Wilbraham of the office of Secretary Treasurer of the Village and caretaker of the Fire Hall be accepted. Cd.

Moved by Mr. Foxwell that this Council appoint E. W. Carter, Secretary-Treasurer of the Village and caretaker of the Fire Hall at a salary of \$200.00 per month and that he hold this office at the pleasure of the Council, this position to take effect from the first day of May, 1932, also that the Mayor and Secretary Treasurer be empowered to sign the necessary bank forms and cheques and bankable paper in and for the Village of Irma.

Moved by Mr. Foxwell that a vote of thanks be offered the retiring Secretary of the Village for his efforts as Secretary Treasurer for the past three and a half years. Cd.

Secretary was instructed to write the King's Printer for four copies of Village Act and amendments.

Mr. Schon was asked to instruct the new Secretary as to his duties etc. The Council took up the matter of revising the assessment roll for 1932 same being done and changes noted.

Moved by Mr. Tripp that the Court of Revision be held on June 9th, 1932 and the Secretary be instructed to mail assessment slips at once to all parties appearing on the 1932 Assessment roll. Cd.

Public Works discussed. This matter was held over until 1932 Budget is prepared.

The account of Dr. Greenberg \$15. for vaccinating School children was ordered tabled for information regarding this account.

Moved by Mr. Tripp that Council adjourn. —Chas. Wilbraham, Sec. Treas.

NEW STAMP TAX WENT INTO EFFECT MAY 2nd

RATES 3 AND 6 CENTS

New federal stamp tax on cheques, drafts, notes and all bills of exchange went into effect May 2nd, according to information received by local banks. Official schedules are now being distributed by the federal department.

The present rate is two cents on any amount greater than \$5, a system which superseded the old pyramid tax. The new tax will be three cents on all amounts over \$5 and not exceeding \$100. Over \$100 the tax will be six cents.

Kinsella District

Miss Ella Cormack who is attending Alberta College at Edmonton is spending the week with her parents Mr. and Mrs. R. Cormack.

Mr. and Mrs. P. E. Jones of Irma called at R. L. Eaton's on Sunday.

Miss Kathleen Ferries spent the week end in Edmonton where she visited her Father, W. L. Ferries who is a patient at the Royal Alexandra hospital where he has to undergo an operation.

Mrs. Bruce Davis is assisting in the store of W. L. Ferries in his absence.

Mr. and Mrs. Kuss of Vegreville spent Sunday with the latter's parents Mr. and Mrs. D. Corbett.

Mr. and Mrs. J. Neale and family spent Sunday at Vermilion with the latter's parents. Mrs. Neale's father, Mr. Bishop, returned home with them.

Mother's Day was observed in the church here on Sunday with special music and a special program.

Miss Larue, teacher at Greenshields spent the week end with friends here.

Mr. Jack Corbett is at home for the summer after attending the University at Edmonton.

Mr. and Mrs. R. L. Eaton spent Sunday after noon with Mr. and Mrs. W. Anderson at Clark Manor.

Avondale.

Avondale Jrs. held a Mothers' day party at Avonlong on Saturday, May 7th. 64 mothers, grandmothers and daughters being present. The business of the meeting was interspersed with songs of mother. Ball balling answered by a quotation paying tribute to mother. Miss Dutton kindly acted as Secretary as Miss Cynthia Nottingham felt unequal to doing the work for that day owing to the recent loss of her dear mother. The business was completed by the dancing.

After the meeting adjourned the party joined the Juniors in games, mothers and daughters responding when their numbers were called. At the close the Juniors served a delicious lunch, finished by some delicious home made candy and a peanut scramble. Mrs. Allen (the supervisory) on behalf of the Juniors moved a vote of thanks to the Mothers and friends for their hearty co-operation in making the party an enjoyable one and Mrs. McLean on behalf of the mothers gave the Juniors a vote of thanks for sponsoring an enjoyable time for the guests. The next Junior meeting will be the first Saturday in June.

The Juniors presented their former member Mrs. G. Allen (nee Jean Morse) with a beautiful bodice.

Mrs. Cooper and baby daughter went to Edmonton on Sunday morning's train to see Mr. Cooper who has been at the University hospital the past month having had two fingers off to relieve injury suffered during the late war. Mr. Cooper expects to be detained at the hospital for a month or more yet.

Everyone come to the Junior dance on May 27th at Avonlong. Coultman's Orchestra.

C. N. R. HOLIDAY RATES

The longest weekend holiday of the year, Victoria Day, May 24th, falls this year on a Tuesday and furnishes the opportunity for the railways of Canada to render an outstanding service. Between all points in Canada and some specified places in the United States, return fares for the holiday will be at the rate of one and one-quarter times the one-way first class fare. Similar concessions will also be given by the railways for the holidays of King's Birthday, June 3rd, and Dominion Day, July 1st. Reduced fare tickets for the Victoria Day holiday will be on sale from noon, Friday, May 20th, until noon, Tuesday, May 24th. The return limit of these fares will be midnight Wednesday, May 25th.

The regular meeting of the W. M. S. will be held at the home of Mrs. Jack Fletcher on Thursday next, May 19th.

The West Views Empire Conference

By J. R. Love, M.L.A.

S' all Canada's glens be guided solidly by the dominating opinions of the industrial east? The answer is "Yes," unless an immediate effort is made to solidify and unify the views of the four western provinces.

Already the press of the Motherland, and of the various dominions is beginning to hum with the advance views of what may be expected to happen at the Ottawa imperial conference, to be held this year at Ottawa. Stanley Baldwin said recently, "We are really at the crossroads in our imperial fiscal relations. We are bound either to go forward on the road that leads to closer economic union within the empire, or we are bound to take another road."

So far as the motherland is concerned, her position seems to be quite clear. Premier Ramsay MacDonald has repeatedly said "Our policy will be to trade with those who will trade with us." The Prince of Wales did not go to the Argentine and other South American republics for a holiday. He went there to trade.

So far as the motherland is concerned, her position seems to be quite clear. Premier Ramsay MacDonald has repeatedly said "Our policy will be to trade with those who will trade with us." The Prince of Wales did not go to the Argentine and other South American republics for a holiday. He went there to trade.

ern Canada to solve, surely it is time that the four western provinces decided in some united manner that the west is going to have some voice in determining what Canada's attitude shall be at the Ottawa conference.

The greatest problem facing western Canada today is to find markets for its surplus farm products. So long as we in the west could sell our surplus largely for cash, we were prepared to buy goods made in eastern Canada. Eastern Canada doesn't want our surplus farm products, but the motherland does. Eastern Canada wants to supply the west with industrial and manufactured goods, but she demands cash, for our credit is exhausted. The motherland is prepared to accept our surplus farm products if we in turn are prepared to accept a substantial payment for same in the form of British imported goods.

The position of western Canada is as clear as the noon-day sun. We have no alternative, except to fight for our economic existence, by advocating with a united voice for "freer trade within the empire."

Never has a conference been called in which the opportunities are greater, but in which, if these opportunities should not be taken, the course of events may lead us all far apart. Now is the time for the western provinces to get together, to unify our views, so that the best interests of Canada as a whole, and of the empire at large, may be served at the forthcoming conference.—Edmonton Journal.

CHURCH NOTICES AND ACTIVITIES

UNITED CHURCH NOTES

The services next Sunday will be at Albert, Alma Mater and Irma at the usual hours.

ALMA MATER MERRYMAKERS

The Merry-makers held a meeting on May 2nd. Although the busy season is on we had a good attendance. Business was done as quickly as possible, and after this was done Mr. Geeson gave us a very interesting talk of his holiday and the wonders of the Yellowstone Park. Everyone thoroughly enjoyed it and also the pictures he brought to show us. We hope to have Mr. and Mrs. Geeson out at Alma Mater again.

\$13.30 CONTRIBUTED FOR NAVY LEAGUE

Rallying to support the Navy League of Canada in its work of assisting the widows and orphans of the men of the Merchant Marine, Irma citizens contributed \$13.30 to this cause in a recent campaign here conducted by Fred Cooke, organizer of the Alberta Division.

Contributions may also be sent to V. J. Ward, Esq., Secretary, whose address is 2140, 16th St., West, Calgary.

W.C.T.U. Convention

The Edmonton District Women's Christian Temperance Union convention was held at Edmonton on Tuesday and Wednesday last week for the 20th Annual Convention, the President, Mrs. Margaret Hyslop of Viking, presiding.

The work of the year as reported by the Superintendents of the various departments showed marked progress. At the Tuesday afternoon Session, Mr. H. H. Hull, general secretary of the Alberta Prohibition Association gave an inspiring address and also dealt with the recent action of the House in connection with the Beer Parlor Petition.

At the Convention Banquet Tuesday evening at which members of the Lamont Union were hostesses, one hundred and twenty-five delegates and friends were present. His Worship Mayor Harrison brought civic greetings. Rev. M. McLeod speaking on behalf of the church stressed the close connection between W. C. T. U. and church work. Mr. French, school principal, praised the W. C. T. U. for the educational work carried on and spoke highly of the contests as a means of preparing students for public speaking. Mrs. Hyslop replied, thanking the speakers for their interest in the work, and closed with remarks on the W. C. T. U. motto, "For God, for Home, and for Country."

The banquet was followed by a Grand Gold Medal contest. Four gold medalists contested and the grand gold medal was awarded to Mitchell Bricker of Lavo. Solos were rendered by Miss Margaret McPherson, Miss E. Madson and Dr. Archer, and a temperance playlet, "Right About Face" completed the evening's entertainment.

At the election of officers which took place last Wednesday morning the following officers were elected: Hon. Pres.—Mrs. H. M. Hilliker of Viking.

President—Mrs. Margaret Hyslop. Secretary—Mrs. J. D. Stephens, Vermilion.

Cor-Secretary—Mrs. M. L. McPherson, Busby.

Treasurer—Mrs. J. L. Hay, Ryley. Young People's Sec.—Mrs. G. W. Waistell, Edmonton.

L. T. L. Secretary—Mrs. Houston, Wainwright.

An impressive memorial service was conducted by Mrs. McPherson and Mrs. Stephens for the late Provincial President, Mrs. Louise McKenney and her husband who died more recently at Claresholm, also for Mrs. Down, Mrs. McKay and Miss Cavanagh, late of Edmonton. Delegates from Viking to the convention were Mrs. Hyslop and Mrs. Purvis representing the Viking Union and Mrs. Amelia Haffo representing the local Young Women's Christian Temperance Union.

WEEKLY REVIEW PROV. MARKETS

BEEF—Trade at Edmonton

has been showing active, with buyers displaying interest, and prices are firm to slightly higher. Receipts were on the light order. Choice heavy steers \$4.75@5.00; choice light at \$5.00; good \$4.75@5.00; medium \$4.50; common \$2.50@3.50. Choice heifers \$4.75@5.00; good \$4.50@4.75.

FEEDERS, STOCKERS—Demand

in this section of the market has been easier, with prices slightly lower. Feeder steers \$3.25@3.75; stock steers \$3.00@3.75; stock cows \$2.50@3.00.

HOGS—Edmonton price for bacon,

fed and watered, is \$3.45@3.60; select \$3.35@3.40; butchers \$2.95@3.10.

SHEEP—Yearlings brought \$3.50

at Edmonton, with ewes \$2.50@3.40, and lambs \$4.50@5.75.

CREAM—Market prices steady,

with special 12c; first, 10c; second, 7c, at country point and centralizing creameries. Receipts have been heavier during the past week.

POULTRY—Supplies light; owners

are keeping their hens while laying. Few that are arriving are in good condition. Old roosters offered, but condition only fair; outlook for broilers not good; eastern markets low and first offerings expected Saturday, for which owner is getting 25c for birds dressed to 1-1 1/2 lbs. Prices steady. No. fowl, over 4 lbs, 7c; No. 1, under 4 lbs, 5c; No. 2, 4c; roosters, 4@5c.

EGGS—Receipts have improved

since the storm, but large number of seconds reported. Quotations steady: Extras, 3c; firsts, 6@7c; seconds, 4c; cracks, 3@4c.

Wool—Movement from country

points light, but city markets report active demand. Prices steady: Up-land \$8@9, smooth \$10, on track at shipping point. City market quotes upland \$12 and baled at \$10@11.

FEED OATS—Trade very light,

with offerings only arriving as required. Price steady at 23@25c a bushel delivered.

GREENFEED—Good demand, but

supply limited, as hauling being made from distant points. Quality good; price steady at \$8@9 a ton delivered.

Teamwork

The one word or term embodying this thing most needed now and most likely to be needed in an increasing way for the long pull back to more satisfactory economic and business conditions is, in our opinion, "Teamwork." If there ever was a time which called for the long pull and the strong pull altogether, that time is now.

A farmer following his horses as he guides a plough along the furrows knows what teamwork on the part of the horses means; also teamwork between the horses and the ploughman. Possibly he realizes the full value and necessity of such teamwork in an even more striking manner when it is lacking, and, as the outcome, proper results are not being achieved.

Men participating in the many fields of sport have a full appreciation of the value of teamwork. Every successful captain of a team drills it into his men. But how frequently one reads that such-and-such a team, while composed of brilliant and superior individual players, lost out to an individually inferior team because of a lack of co-ordinated effort—in a word, teamwork. And this lack of teamwork all too frequently results because one or more of these individually brilliant players desire to keep themselves in the "spotlight," to play to the gallery, and win plaudits for themselves rather than for the team as a whole.

Success in military exploits depends to a very large extent upon teamwork, the co-ordination of every arm of the service to the achievement of one common object, the co-operation of each unit with every other unit, both in preparation and final action, to the end that victory be won. Without this "union in service" the bravest men in the world are likely to suffer defeat at the hands of an inferior but more unified force. Victory does not always rest with the big battalions, but with the compact body which moves and acts with precision as one man.

The same principle applies with equal truth and power in the realm of national, political, and community life. If in an army the artillery considered that it, and it alone, was the effective instrument in winning battles, and instead of co-operating with the infantry, tanks, machine-gunners and aircraft, actually ignored and even strove against them, the enemy would win. Yet, how often groups of people having a common object in community effort or in the political arena instead of working together to achieve that object, actually oppose each other solely because they do not agree upon every detail of their programme, nor see eye to eye as to the methods by which and through which the reforms desired by all are to be brought about. And the result, of course, is victory for the other group or policy to which they are all opposed.

There are many time-honored maxims which point the truth that teamwork is essential to success. "In union there is strength." "United we stand, divided we fall"; while for the enemy forces there is always the further maxim: "Divide and rule."

Teamwork can only be brought about by a willingness to compromise. Some good people regard the word "compromise" as something essentially wrong, as a great evil. True, right cannot compromise with wrong, nor honesty with dishonesty, but where two are striving for what both believe to be right, and in opposition to what they are agreed is unwise or wrong, it is the height of folly to divide into separate and opposing camps, weakening each other and the cause they both desire to advance, simply because of minor differences of opinion as to exact objective to be achieved or the methods by which it shall be achieved. Unless there is compromise, rather than each one insisting upon acceptance of their views to the exclusion of others, failure for both must inevitably follow and victory be recorded for the common enemy.

The experiences through which the world is passing have impressed a majority of people with the need for more or less radical changes in our economic and social structure. That change is necessary is fairly well recognized, but some desire to move much more rapidly and drastically than others; some believe the remedy for our ills lies in one or another policy; others, again, advocate something else. All want improvement, reform. But through divided councils, lack of co-operation, in a word, an absence of teamwork, nothing but confusion has thus far resulted, while those minorities who are more or less satisfied with things as they are, by working together, are enabled to dominate.

This condition prevails in society, business, community effort, in municipal, provincial, and international politics. It is even found in family life. It is fatal to progress, a continually delaying factor in the onward march of reform.

What the world needs today is not antagonism, but mutual sympathy; not competition, but co-operation; not isolated effort, but co-ordination of effort; not single-handed play, but teamwork. And these things can only be brought about by compromise. So, let's compromise and develop mutual strength through teamwork. The world will then begin to get somewhere, and out of the slough of depression in which it continues to founder.

New Weapon For Surgery

Operation To Remove Cancerous Lung Was Successfully Performed

For the first time in the history of surgery and the treatment of cancer, an entire lung, with a cancer in it, has been removed by the use of the knife, and the patient cured.

This was made known in an interview with Dr. A. L. Lockwood of the Lockwood Clinic, who has returned to Toronto from the annual meeting in Ann Arbor, Mich., of the American Society of Thoracic Surgeons, where the disclosure was made.

During the society's three-day meeting, details of this extraordinary operation were revealed in detail by Dr. Edward D. Churchill, of Boston, Mass., who performed this feat of surgery. The patient's chest was lifted and all three lobes of the right lung, the centre lobe containing the cancer, were cut entirely away.

Dr. Churchill's case, it was demonstrated, had made it clear that there was no further site of cancer which could be dealt with surgically, which in the past could not be so dealt with at all.

Believed to have been burning from 10 to 15 years a fire has just been discovered under a hospital at Stoke-on-Trent, England.

Saskatchewan now has 136,571 farms and Alberta 97,623.

Palpitation of the Heart Could Hardly Get Around

Mrs. Charles Soren, R.R. 5, Picton, Ont., writes: "I was troubled with palpitation of the heart; couldn't sleep, day or night, and was so weak I could hardly get around."

After taking Milburn's Heart and Nerve Pills I was greatly relieved of these attacks. My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful builder."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Plane Surprises Natives

Dayaks Of Borneo Wanted To Know If Flying Machine Laid Eggs

The head-hunting Dayaks of Borneo were so intrigued at the sight of their first aeroplane that they wanted to know whether it laid eggs.

Richard Halliburton, of Memphis, who is on a leisurely flight around the world, told the story to associates in New York in a cable from Manila.

The Tennessee flyer's message said he had arrived at Manila at the end of a 40,000-mile flight and had spent three weeks in Borneo with his plane, the "Flying Carpet," visiting the head hunting Dayaks, who never had seen an aeroplane.

"Took the chief flying in native undress, except for goggles," the cablegram said. "Apparently big event in Dayak's history. War boats were filled with warriors who came 100 miles to see the chief fly. Dayaks asked if aeroplane laid eggs."

Used Ancient Seed

Green Peas From King Tut's Tomb Cultivated Near Port Arthur

Green peas, King Tutankhamen's own favorite brand, are growing today in Pass Lake 25 miles north of Port Arthur. M. Pejstrup is the possessor of more than two hundred of them grown on one stalk.

A year ago Mr. Pejstrup visited his home in Denmark and while there purchased a solitary pea for \$25. He tells that six peas were brought from the tomb of King Tut in Egypt by a Danish missionary and sold for amounts varying from \$25 to \$30, and the one purchased by Mr. Pejstrup was planted here in the Danish settlement last summer.

The stalk of the pea was about five feet tall topped with a cluster of multi-colored flowers. The stem being about half an inch in diameter. From the solitary pea planted a yield of over 200 was obtained.

What the automobile has taught women about household lubrication

Experience with motor cars has taught women that moving parts must be protected against wear by a film of oil. Many of them haven't learned, however, that the same principle of sewing machines, vacuum cleaners, lawn mowers, washers, and other mechanical devices must also be protected against dirt and rust.

3-in-One Oil not only lubricates; it also cleans and protects. It is different from all others, because it is a scientific blend of three high grade oils—animal, mineral and vegetable. 3-in-One is the oil you should use on mechanical equipment if you want best results.

Don't risk your expensive household devices by using oil that does only half the job. Insist on the old reliable 3-in-One. It costs little more to buy and much less to use. At good stores everywhere. For your protection, look for the trade mark "3-in-One" printed in Red on every package.

A Sincere Compliment

New Vicar Was Sized Up As Real Good Sport

The new vicar paid a call on the most wealthy of his parishioners, who was delighted to find that the clergyman was a man of such broadmindedness and with such an interest in sport. After they had discussed the Boat Race and other recent affairs in sport the vicar rose to go. The other, clapping him heartily on the back, said "I think we shall get on very well together, vicar. To tell you the truth I hate those religious parsons."

Like a Grip At The Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unending dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passage as thousands can testify. It is sold by dealers everywhere.

Called His Bluff

The time had come to dish up the ration, and in an Irish regiment the quartermaster and his assistant had been portioning them out in preparation for distribution.

The assistant turned to the quartermaster and with a twinkle in his eye, said: "Av ye plaze, sorr, there's a loaf short. Who'll I give it to?" "Keep it yourself," Mike replied the quartermaster.

Camels in the small province of Cireneica, Africa, now number 40,000.

Poison Ivy is most virulent at the flowering season.

Of the 92 chemical elements, 47 of them are found in the sea.

Radium Found In Ocean

Scientist Claims Vast Stores Are Deposited At Bottom Of The Sea

Vast stores of radium cached in Davy Jones' locker were described by scientists before the American Geographical Union.

Sediments on the bottom of the Pacific Ocean are from four to nearly 12 times as rich in radium as ordinary rocks on dry land, according to figures quoted by C. S. Piggott, based on samples dredged up from the sea floor. The most radium is in the deeper parts of the ocean bottom, remote from land, and Piggott estimated the total hidden there at about a billion tons.

The radium is sent to the bottom mostly by oxidation in the sea water, while some is carried down by skeletons of tiny sea creatures and dust particles, he explained.

Persian Balm—the peerless aid to loveliness. Delightfully fragrant. Deafly to use. Leaves no stickiness. A little gentle rubbing and it is swiftly absorbed by the tissues. Tonic in effect. Soothes and dispels roughness and chafing. Keeps skins soft and velvet-textured. Unrivalled for charm, distinction and refinement. Used by lovely women everywhere to preserve and enhance their natural beauty.

Keep On Working

Despite Disarmament Talk New War Weapons Being Invented

Just as a fillip to the disarmament discussions, we suppose you noticed that Hadfields, Limited, munition manufacturers of Sheffield, England, have developed a high explosive shell that will pierce the best quality of armor plate one foot thick, from a distance of ten miles.

While the world talks much of disarmament, the men who sit back and invent new schemes for killing millions keep right on working—and producing results.

A new highway machine invented by an Iowa, digs up the surfaces of old gravel roads, mixes the material with a bituminous binder and spreads the mixture back on the road again.

Cried at Night

"Night after night, as soon as we would get settled in bed, baby would start crying. . . BABY'S OWN TABLETS changed all this. What a blessed relief," writes Mrs. Arthur Baker, Jr., Winona, Ont. Give Baby's Own Tablets for teething troubles, colds, fevers, colic. Absolutely SAFE. 25c package. — 235

Dr. Williams' BABY'S OWN TABLETS

China, the most populous nation in the world, had 479,821,000 inhabitants in 1930. That country has 110.4 persons for each square mile of land area.

It pays in pleasure—and pays in actual cash. For Turret Fine Cut is fragrant, mellow Virginia tobacco, that rolls into thoroughly satisfying cigarettes. You can roll at least 50 cigarettes with a 20c package.

FREE Chantecler cigarette papers with every package.

Stop and Think!

it pays to "ROLL YOUR OWN" with

15c and 20c packages—also in 1/2 lb. vacuum tins

Split the Atom

Scientists Pave the Way For Transmuting One Element Into Another

Two British scientists have at last "split the atom," paving the way for transmuting one element into another, the goal of alchemists many centuries ago, and the dream of modern chemists.

Dr. P. D. Cockroft and Dr. E. T. S. Walton reported the result of experiments in the Cavendish laboratory which culminated in the transmutation of hydrogen atoms into helium atoms, by bombarding them with electric particles.

Dr. Cockroft said he and his colleague bombarded hydrogen atoms with a voltage of 100,000 and that under the bombardment the hydrogen atoms began to break up into helium, a still rarer gas. The helium atoms, he said, came out of the bombardment with energies of 100 to 160 times those of the particles fired into them.

Only one particle broke up, however, for every 10,000,000 particles used to bombard it, he said.

Optimistic scientists have long hoped to split an atom, some contending that when this feat was accomplished a boundless source of energy would be available. There have been extremists who feared the accomplishment would mean the hurling of the world to destruction.

"It is difficult to say what this discovery may lead," Lord Rutherford said. "Up to the present the experiments have not yielded anything which will be of immediate commercial value."

China Leading Customer

China is the leading customer for complete aircraft made in the United States. In both 1929 and 1931 China held the lead over all other countries. The Chinese like American machines because their territory bears a remarkable similarity in flying conditions to those in the United States.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother's Own Worm Extremator.

Too Bad For the Wife

A farmer appeared the other day at a theatre that is accepting two dozen eggs as the price of admission. He handed a paper sack to the ticket-taker.

"There's a couple of dozen eggs, mister," he said. "I want to see your show. I'd have brought the missus with me if the hens had shelled out a little better."

China, the most populous nation in the world, had 479,821,000 inhabitants in 1930. That country has 110.4 persons for each square mile of land area.

Danger In Worn Tires

If Used At All Should Be On Rear Wheels

It has been pretty definitely established that the rear right tire is the first to wear out, the rear left next, the front right next, and the front left last of all.

As a result, practice has become almost general to shift the worn-out rear tires to the front wheels with the idea of evening up the wear.

This, however, is dangerous. When a worn tire blows out on a rear wheel while the car is travelling at a high rate of speed, the driver still has enough control of the front wheels to guide the car safely out of a dangerous skid.

When, however, a front tire lets go, and the car is moving fast, there is almost nothing the driver can do. The steering is thrown out of his control, the car is forced into a serious skid and there are great possibilities of injuries to all in the car.

Rather have a worn tire on a rear wheel, even though it will wear down so much faster, than risk it to the front. For greater safety, however, a tire that shows the first mark of a tread worn down to the fabric should be taken off and used only as a spare.

Even as a spare, it should be in use only long enough to get a good replacement.

Suffering in silence is more fun if you explain what you're doing so nobody will miss it.

Large shipments of construction materials continue to arrive in Manchuria.

Some Of The Advantages As Well As Disadvantages In Growing Of Reward Wheat

(By H. G. L. Strange)

As the wheat fields in Western Canada began to extend northward the need was felt for a wheat variety that would mature earlier than Marquis, so as to avoid damage from early fall frosts. Several new varieties had been produced by plant breeders to fill this purpose, notably the Red Bobs selections, originated by Dr. Seager Wheeler, Supreme, Early Triumph and Red Bobs 222, the latter having been re-selected by the University of Alberta, also the varieties Garnet and Reward produced by the Dominion Experimental Farms, Ottawa.

Because of its high yield Garnet wheat quickly became popular and in the last few years has increased by leaps and bounds in Northern Alberta and Northern Saskatchewan. Some concern, however, has been felt because the milling qualities of Garnet are somewhat different to those of Marquis, and because Garnet flour has a slightly yellowish tinge, that the quality and reputation of Canadian wheat on the world's markets might be harmed if too large an amount of Garnet should be grown.

Because of this concern some have recommended that some of the other earlier varieties might be better. Reward wheat is, one that is widely recommended.

Reward was originated at the Dominion Experimental Farm, Ottawa, and is the result of a cross between Marquis and Prelude made by Dr. Charles Saunders in 1912. Under the direction of Mr. L. H. Newman, the present Dominion Cerealist, the variety was tested for several years by several hundred co-operators in different parts of the west. Finally the variety was released by the Minister of Agriculture for further trials by farmers in 1928.

Reward wheat has this year been accepted for registration by the Canadian Seed Growers' Association, which means that the scientific plant breeders of Canadian Institutions consider that the variety is of good economic value and is well-suited for use in Western Canada. There can, therefore, be no need for hesitation in the use of this variety by any farmers who find that their districts and farms are suited to Reward wheat. The Dominion Cerealist has now standardized the variety and Registered Seed of Reward, true to variety and sealed in the sack, will undoubtedly be available to farmers in the near future.

The official description of Reward wheat is as follows: Time of maturity 5 to 8 days earlier than Marquis; height of plant 3 to 4 inches shorter than Marquis on the average—strength of stem a little stronger than Marquis—awns absent except for a few short apical awns, usually irregular in length, glume covering, slightly to heavily pubescent (or hairy), depending on season and locality, grain color red, usually darker than Marquis, grain texture hard, rarely plebeid or starchy.

The head of Reward is generally shorter and more lax than Marquis, while the spikelets are usually more or less irregularly arranged, giving the head a characteristic ragged or spiral appearance. As previously stated the glumes are pubescent or covered with short hairs which can usually easily be seen with the naked eye, magnifying glass. This is one of the always with a magnifying glass. This is one of the characters that help in identifying the variety.

The milling and baking values of Reward wheat are excellent. It gives a high yield of flour. It bakes into bread, giving a large well piled loaf of excellent color and texture. The berry is uniformly plump, of a clear red color, seldom being plebeid or starchy. This is the reason this variety will often bring No. 1 Hard and No. 1 Northern in the Northern districts where Marquis and some other

sorts seldom obtain better than a No. 3 grade.

The straw is shorter and stiffer than in either Marquis or Garnet, and in wet years Reward will often stand up when some other varieties, particularly Garnet, go down. The chaff is tight on the kernel, which enables it to stand a considerable amount of moisture in the fall without sprouting in the stock, such as often happens with other sorts, particularly with Garnet.

It is from 5 to 8 days earlier than Marquis, or about as early as Garnet wheat in most places, although in other places it is 2 or 3 days later than Garnet, but it is always earlier than Marquis.

Weights very high to the bushel. Usually two or three pounds more than Marquis, Garnet or other sorts. Weights of 65 and 66 pounds to the bushel are quite common with Reward wheat. Reward is probably the best of all varieties of Hard Red Spring Wheat for Exhibition purposes. Its high weight per bushel, bright, plump and pleasing berry of good lustre usually win it a high place in competition with other varieties.

Reward wheat is not a rust resistant wheat, but because of its earliness in rust years often suffers less damage from rust than many of the other varieties. Investigations show that Reward wheat does not shatter as much as some of the other varieties, particularly Garnet.

On rolling land wheat on the high ridges usually ripens before that in the low spots. Reward will stand on these high places uncut after ripening for a considerable time without the berry shrinking or discoloring, thus the whole field can be allowed to ripen thoroughly before cutting; therefore the sample should be of an even color and plumpness even from such rolling land. Its stiff straw, early maturity, non-shattering head and ability to stand after ripening without much loss of plumpness, weight or color, makes Reward wheat an excellent variety to use for Combine Harvesting.

The most defect of Reward wheat at the present moment seems to be that on the whole the yield is lower than either Marquis or Garnet, but in some districts farmers state the yield of Reward is higher than Marquis or Garnet, and in many districts where most farmers report lower yields of Reward there are often one or two farmers who report higher yields. In most cases those who report high yields of Reward have seeded from a peck to half a bushel more than is usual with Marquis or Garnet. Every case investigated where the farmer seeded two bushels of Reward to the acre reported as giving a satisfactory yield.

An Old Advertisement

Egyptian In Third Century Wise In Business Matters

A cleverly written advertising sign, the idea of an enterprising business man in Egypt in the third century B.C., has been discovered by Dr. Reich, of Dropsie College. The advertisement, written on a small stone, has been deciphered as follows:

"Dreams I explain, holding the commands of the Gods. Good fortune! A Crete will interpret them."

This old advertisement was found by Dr. Reich as he examined a number of inscriptions from the Temple of Serapis, near Memphis. The Dream Interpreter's sign had been strategically set up before the Avenue of Sphinxes, which led to the temple. Along this avenue passed Egyptians who came from near and far to spend a few days on the temple grounds. They came in order to sleep there and to have their dreams interpreted by the priests, who were the official and paid dream-interpreters. The stranger from Crete was therefore daringly edging himself into the dream business against formidable competition of the priests.—Toronto Telegram.

No less than one out of every ten gallons of gasoline is wasted through failure of motorists to replace worn-out spark plugs, according to tests conducted by the University of Pittsburgh.

"I met your husband yesterday, but he didn't see me."
"I know. He told me."

Economic Improvement in French Indo-China shows increasing momentum.

304

A LIKABLE LITTLE MORNING FROCK, FRESH LOOKING AND COOL

Don't you love it! It is a dress you can don when you are "doing things" and feel just right in it. It has no fussy bits and ends to get in the way of your gardening, making the house attractive, etc.

One's mind naturally runs to thoughts of dimity prints, batiste prints, etc., for such a dress. But there are other materials such as dotted piques, striped or plain linen, cotton mesh, tub silks, etc., which could enter the running, too. For this model, a blue and white dimity print with blue bias bands was chosen.

Style 304 is designed in sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 2 1/2 yards of 39-inch material with 7 1/2 yards of binding. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Just An Old English Custom

A. R. Garner may be truly said to carry his responsibilities lightly as he observes an old English custom and carries his bride, the former Miss Marjorie Pretwell, through the door of St. Cuthbert's Church, Yorkville, after the ceremony.

Recent Discovery Interests Astronomers

May Be Asteroid Nearer To Earth Than Any Yet Found

Astronomers at Mount Wilson Observatory and others in this country and Europe are keeping a close watch on Delporte's "object," an asteroid or comet discovered recently by an astronomer at the University of Brussels.

"Our observations of it have disclosed no tail and seemingly only reflected light," said Dr. Frederick H. Sears, indicating that it is an asteroid and one much closer to the earth than any yet found.

He is assistant director of the local observatory, a branch of the Carnegie Institution of Washington.

"Discovery of an asteroid nearer the earth," Dr. Sears said, "would enable us to obtain a more accurate value of the distance from the earth to the sun, upon which the measurement of distances to all heavenly bodies is based."

"We are much in the position of a surveyor shooting the width of a river by 'chopping' at a given point across the stream from two different points on its side of it, and determining the angles of the imaginary triangle. The narrower the stream the more accurate his measurement will be."

"Our computation of 93,000,000 miles as the distance of the sun from the earth is based on the estimate of 13,000,000 miles as the distance from the earth to Eros, the nearest asteroid yet found."

Prices May Be Better

Possibility Of Advance In Wheat Predicted By U.S. Official

A "strong possibility" of better wheat prices are seen by George S. Milnor, president and general manager of the Grain Stabilization Corporation. In a statement Milnor said:

"While in Europe I visited France, Italy, Germany, Belgium and England, and also met our foreign representatives from other countries. Europe will receive rather heavy imports of wheat between now and the harvesting of their new crop. Russia has practically completed the shipment of her wheat surplus from the last crop and the supplies from that source will be negligible until after harvest."

"Europe must turn to Canada, the United States and Argentina for their supplies."

Empire Reforestation

B. C. Douglas Fir Now Grown Extensively In England

During the eleven years ending in September, 1930, the Forestry Commissioners of Great Britain planted a total of 32,330,000 Douglas fir trees on various sites in England, Wales and Scotland. All these trees were raised from seed furnished by the Forest Service, Department of the Interior, through their seed-extraction plant at New Westminster, British Columbia. A considerable quantity of seed of other western species was furnished to the Commissioners from the same source. The New Zealand Government also took a large quantity of tree seed.

Russia announces the successful production of rubber from a plant named "towsagis."

Great Britain and United States Unite In Opposing Abolition Of The Larger Naval Vessels

Rainy Lake Map Sheet

Lake Country East Of Winnipeg Is A Paradise For Canoeists

Very informative and interesting is the Rainy Lake Map Sheet of the National Topographic series, recently published by the Topographical Survey, Department of the Interior, Ottawa.

The map covers the country along the international boundary from Quebec, Ontario Provincial Park on the east to within thirty-three miles of the town of Rainy River on the west. In addition to agricultural, mineral, forest and water power resources embraced in the area, it is known as a great hunting and fishing region. The Port Arthur, Rainy River and Winnipeg line of the Canadian National Railways runs through the district from east to west, picking its way through the maze of lakes and rivers, which were the means of transportation from the time of the opening up of Western Canada until the railway came, about the beginning of the present century. The lakes and broken country are a paradise for the canoeist, the fisherman, and the hunter, and the waterways are so intricate that the voyagers and trappers of the fur companies from the time of La Verendrye onward were always searching for shorter routes for the carriage of their furs and trade goods.

The chief centre of population is Fort Frances, named after Lady Simpson, the wife of Sir George Simpson, one of the famous governors of the Hudson's Bay Company. Fort Frances is situated on Rainy River a few miles below the point where it emerges from Rainy Lake. Near it are shown the water powers with which its name is associated. On the south side of the river in United States is the town of International Falls. The agricultural areas are chiefly in the western portion, extending from Fort Frances to the townships indicated on the extreme western edge of the map.

The railways and highways in United States which bring travellers to the western portion of Canada are also shown. The map which is more complete in all topographic detail of this district than any previously issued, may be had at a nominal price upon application, to the Director of the Topographical Survey, Department of the Interior, Ottawa.

Canada's Dairy Industry

Is In Critical Condition Opinion Of Conference Held In Ottawa

The dairy industry throughout Canada is in a critical condition. That was the conclusion reached at a conference held in Ottawa on April 11 and 12. Delegates were present from most of the provinces and the gathering was said to be thoroughly representative of the whole industry. It was declared unanimously that the situation has been brought about first by failure to keep abreast of the world in methods of milk production and, secondly, by world-wide competition and prevailing economic conditions. The remedy for the one lies to a large extent in our own hands but the cure for the second is not so easily come at.

One of the remedies suggested was to pay a bonus upon all butter exported from Canada through a levy upon the production of butter in Canada. This policy has been followed with success by Australia and South Africa and it was strongly urged by the delegates from Western Canada and some of those from the east. The conference was unable to reach a unanimous decision on the proposal. It was called at the request of Hon. Robert Weir, Minister of Agriculture, and Hon. H. H. Stevens, Minister of Trade and Commerce. Among the recommendations made was the following: "That your Government announce that an emergency has arisen in the dairy industry of Canada and take steps to launch at the earliest possible moment, a nation-wide campaign to increase the efficiency of the dairy industry, through an educational campaign designed to lay the facts of the situation before all interested in the industry."

Canada has for years had nine departments of agriculture in as many different provinces, in addition to numerous agricultural colleges and courses. It seems strange if their united efforts have produced as little effect upon the dairy industry as the conference at Ottawa has indicated.

Another thing that doesn't turn out as you wish is the auto ahead of you.

Great Britain and the United States fought for their battleships at the Arms Conference at Geneva, forming a defensive alliance against an organized offensive of the small powers who wish to classify all ships over 10,000 tons as aggressive.

The small powers would abolish battleships or internationalize them within the League.

The United States and Britain received moderate support from Japan and lukewarm encouragement from France.

Senator Claude A. Swanson, of Virginia, announced at the meeting of the naval commission that the United States unequivocally opposed classifying battleships as offensive weapons. They are the backbone of the United States defense system, he said, and "a threat to no nation," since we covet no one's territory. He stressed the United States obligation to keep the Panama Canal open in peace and war and to defend its Far Eastern possessions.

Speaking and gesturing in a senatorial manner, he continued:

"If we had completed our naval programme after the war, it is conceded we would have been supreme on the seas, but we agreed to be a threat to no nation... the battleship is cheaper and more effective for defensive purposes than to build fortifications along all our coastlines. Battleships have saved us a great and expensive army for defense purposes."

"We realize that naval power plus military power would menace every nation. We only wish the people who have armies had gone as far as the naval people in reducing and limiting."

He declared cruisers to be of greater offensive use than battleships, particularly in preying on commerce and blockading.

Vice-Admiral A. D. P. R. Pound, of Great Britain, supported Swanson, declaring that general naval superiority, not capital ships, enables attacks on trade. Similarly, he continued, it is not fair to claim that battleships are destined for carrying out unwelcome tasks.

"The capital ships of the world can now almost be numbered on the fingers of the two hands," he said. "They are more precious than rubies to the countries possessing them. No nation is going to risk them by pitting them against coastal fortifications."

Baron Von Rheinbaken, of Germany, announced that Germany is willing to sacrifice her powerful and efficient "pocket" battleships on the altar of disarmament if others scrap battleships over 10,000 tons. Defending the "pocket" ships as defensive rather than offensive, he said:

"Germany's 10,000-ton battleships cost one-half as much as your battleships. You would be saving money if you adopted Germany's restricted tonnage methods of construction."

He heatedly attacked the charges made by Charles Dumont, of France, that the "pocket" ships are offensive. He referred to the charges as a myth and introduced a technical demonstration of why the light ships were built speedy and heavily armed to defend Germany against the superior tonnage of foreign attackers.

He also criticized the United States thesis of the defensive nature of battleships, saying:

"What about the blockade of our ports, which was the decisive turning point of the World War?"

Cottage Has History

"The Lone Eagle," a small cottage owned by Admiral Guy H. B. Burage, at Hopkinton, New Hampshire, was built in large form—the crates in which Colonel Charles A. Lindbergh's New York-to-Paris plane "Spirit of St. Louis" was shipped back to America.

Spanish cedar is grown chiefly to make cigar boxes.

"Why is your husband in such a rage?"
"They are praising marriage over the wireless!"—Dorfbauer, Berlin.

"But the boat sails on the 13th of the month. Aren't you superstitious?"
"A little, but it's my wife who's sailing."—Euen Humor, Madrid.

W. N. U. 1941

The World Owes Much to Advertisers

ALL OF US would be poorer if there were no advertisements in our newspapers—poorer in pocket, mind, comfort, culture.

Advertisements have been called the "Poor Man's University" for they are wonderful teachers—wonderful mirrors of the world's scientific and cultural development.

It is advertisements which keep up informed about what is being accomplished by the world's best engineers, chemists, research workers and technicians, in every field of human endeavor—in the realms of radio, motor-car and tire manufacturing, food preparation, remedial preparations, domestic and personal hygiene, building materials and construction, and agricultural economy, home easements and beautification.

If there were no advertisements in our newspapers and magazines, we'd slip back—back to the levels of life of 50 and 100 years ago. We'd read less, move about less, lower our living standards, be content with poorer machines, eat coarser foods and wear coarser clothing, live in unattractive homes, do a vast amount of distasteful labor, wear ill-fitting shoes, see ugliness everywhere, have more illness, meet with more accidents, have more toothaches; and our stores would be very dull places indeed.

To blot out advertisements would be like blotting out the sun—the source of light and energy.

Be grateful to advertisers, and show your gratitude by buying what they bring so faithfully to your attention—in this and other newspapers.

And always remember that advertisers are the world's civilizers and your true friends.

Mention the Irma Times when writing

If times get much harder, people will be unable to even pay the grudges they owe.

The modern way: She: "I'm sorry, but I became engaged to Dick last night." He: "Well, how about next week, then?"

Wainwright

Owing to being pushed off the sidewalk on Main street last week little Kathleen Koshnicka is suffering from a broken wrist which is now progressing nicely.

We deeply regret to have to announce that the son of Mr. and Mrs. Cuthbertson, unfortunately only lived about six hours on Saturday last.

Mr. H. Macdonald, who has started up a service station at Fabyan moved his family to their home on Monday. His former house is to be occupied by Mr. and Mrs. G. Harrison.

Word has been received that Mr. D. L. Plimton, will come here from Belmont, Man., to take over the office of manager at the Bank of Montreal in place of Mr. J. Cuthbertson, who has been transferred to Melville, Sask.

On Sunday evening last the members of the three branches of the I.O. O.P. order in Wainwright, with their numbers added to by a number of the brothers and sisters from Irma Lodge, attended divine service at St. Thomas' (Ang.) church, when the Rev. A. Trendell, was the preacher for the evening.

No less than four business places were broken into during the past week, these being the Alms Meat market, Wainwright pharmacy, and the Bawlf and Pool elevators. The depredations were no doubt the work of some of the "gentlemen of the rods and ties." Fortunately no great loss was suffered in any instance. The R.C.M.P. are checking up on these.

TOFIELD READY FOR BALL SEASON

Tofield, May 6th.—A meeting of baseball players and fans was held here Tuesday when the local club re-organized here for the coming season. The club starts the season under favorable circumstances, having a cash balance of \$125, \$75 of which was raised at a minstrel show put on by the club on Friday and Saturday evening last.

Laurie Scott is leaving Duluth for the summer, and this being his home town, he will be a strong acquisition to the local club. Laurie is equally at home on the baseball diamond as on the ice.

A girl is real proud when she graduates from college with a B. A. degree, says a careful observer, but she is even prouder when she enters the school of matrimony and ads B.Y. to her degree.

IRMA TIMES

H. W. LOVE, Prop.

A Good Advertising Medium and a Reliable Newspaper on Oil Activities

A drug trade publication recently sent out a number of investigators to ascertain what was the major consideration in the minds of prospective purchasers of merchandise. Ten thousand persons buying in large and small towns were interviewed. The answers were summarized and are interesting. The question asked in each case was, "What are your main reasons for preferring to trade in certain retail stores?" 37 percent gave "Better selections and variety of merchandise," 22 percent gave "more modern stores," 21 percent gave "Lower prices, better values," 12 percent gave "Better trained and more courteous sales people," 8 percent gave "Miscellaneous." Contrary to the usually accepted idea, the determining factor was not the lowest price. As a matter of fact, price ranked third, while selection and modern stores led. The survey should be helpful to all merchants, even though it was put on by a druggists' association. The survey was most carefully conducted and every possible precaution was taken to secure a correct and fair report. The survey is a college education in the matter of modern merchandising.

If milk and butter were as extensively advertised as cigarettes and autos, no producer would complain of the price. It's easy on the throat; it satisfies, and a person would walk a mile to get it and take some home. It has abundant power, pep and the perfume of health. It is the best health food for the weak, and the best reducer on the market for the over-fat. It's cheap now but price alone is a poor seller; it needs advertisement.—Morris Tribune.

WHAT'S WRONG WITH THE COUNTRY?

Too much oats and too much wheat,
Too much corn and too much heat,
Too much cotton, too much oil,
Too many hours that we don't toil;
Too many highways, too many cars,
Too many people behind the bars,
Too much poverty, too much wealth,
Too many people have poor health,
Too much politics, too much bore,
Too many sweating high-heeled shoes,
Too many loafing, too many bets,
Too many people behind the bars,
Too many spending their dough for gas,
Too many talking of European sass;
Too many living beyond their means,
Too much buying canned corn and beans,
Too many sowing their crop of wild oats,
Too many candidates after your votes,
Too many hiring their washing done,
Too many playing bridge for fun,
Too many poets, too much prose,
Too many girls without underclothes,
Too much buying of goods on time,
Too many people don't save a dime;
Too much ball, too much play,
Too many officers on big pay;
Too much taxes, too much sport,
Too many folks spend every cent;
Too much fun, too much ease,
Too many rips in my B.V.D.'s;
Too much reform, too much law,
The darndest mess you ever saw!
—Sunnya'de.

LONG BOUNDARY

Many references at gatherings in Canada and the United States are made to the "4,000 miles of undefined boundary" between the two countries. As a matter of fact the boundary is 5,600 miles in length, of which 3,100 miles are land boundary and 2,500 miles are water boundary. The land boundary is marked by 5,483 monuments and a vista cut through the woods in all forest covered areas; the water boundary is identified by 2,330 reference marks.

FIVE CENT WHEAT BONUS ENDS JUNE 15TH, 1932.

Notice has been given that the five cent wheat bonus being paid on wheat from the 1931 crop will expire on June 15th, 1932. Growers are warned to have all 1932 wheat delivered by that date if they expect to collect the five cent bonus payment.

SOME BACKYARD

Major W. H. Mills, a hotel proprietor of Boston Bar, situated on the Canadian National Railways main line between Kamloops and Vancouver, has virtually a young Klondike situated in his backyard, it is reported. British Columbia mining men are discussing his find and it is reported that the Mills mine is producing, with the floor of three men, about eight dollars a day.

Mail Box.

(From The Viking News)

Dear Sir:

I shall be glad if you will permit me to express a few personal thoughts through your valuable columns.

It is almost a worn out statement to say that we are obviously living in a changing period of our history. Every grown person knows all too well that conditions are not what they were and are not likely to be for a long time. From the hired farm hand, who until 1928, could independently demand \$40 to \$60 per month with board and room and now has to be content with \$15 to \$25 per month and a place in the bread line during the winter months, right up through the various classes of society—including farmers, tradesmen, professional men and even our best statesmen, all are aware that we are passing through a perilous time, and something of a new nature must develop in our social and economic life. Even such a Conservative statesman as the Right Hon. Arthur Meighen said recently: "Do not let us sit idly by and proclaim ourselves helpless in the face of a dilemma which we ourselves have created. Do not let us conclude it to be natural and inevitable that men, women, and children the world over should be suffering from peculiar and worrying deprivations in the midst of an abundance of all those things of which no worker by brain or hand should be deprived."

"Someone said not long ago that the world's great bankers had always been right. The world's great bankers are not always right any more than the world's great statesmen or great warriors; but whoever has been right and whoever has been wrong, there has been error, and momentous error, somewhere, or we would not be in the morose we are today. Why should we sit in eternal adulation at the feet of those who have brought us where we are? It seems to me more practical and sensible to clear our minds of predispositions, to analyse our problems at their roots, knowing that something helpful can be done and to find out what it is."

Now, Mr. Editor, ask myself what are we in this Viking district doing to discover the 'something helpful' which can be done. Obviously, our greatest tendency this springtime seems to be towards the increase of Amusements and Sports. I would be the last to discount the value of either of these in their right places; a Game, a Show, or a Dance, as a recreation after a day's work should be very helpful, and, in these days when the products of our labor realize so little, there is and should be ample time for all of these. But, at this crucial period, we make a huge mis- take if we permit these lighter things to occupy ALL our spare time. All our best authorities claim that, with the new adjustments of our economic, commercial, and social systems everyone will gain an increased amount of spare time. Now, if the only uses we can find for this leisure time are lawn and sports, then our recreation will degenerate into 'wreck- reation'. Whereas, if, in addition, we cultivate the habit of knowing the problems of our world—local and world wide, and seek to solve them; if we spend some of our time, in self-education, home improvement, and the best development of our community life, then we shall be in practical ways helping to raise the culture and general standard of our civilization.

In endeavoring to find a 'way out' of our present dilemma, our authorities have found it very difficult to make practical suggestions. The conclusions of some of our best thinkers suggest a direction which is peculiarly interesting in connection with my above statements. At the launching of the League of Nations the Empire Prime Ministers declared that its success was dependent on spiritual forces. They said "Only in the recognition of the fact of the Fatherhood of God and of the Divine purpose for the world, which are central to the message of Christianity, will an ordered and harmonious life for all men be achieved." George Bernard Shaw said recently "Only the Brotherhood of Man as laid down by the teachings of Jesus can solve our present world economic problems." Non-religious men like Bertrand Russell and H. G. Wells, as well as great leaders in all spheres of life, have confirmed the foregoing statements. Now these are not 'crazy' or 'goody' state- ments, but the findings of hard headed secular thinkers who are concerned about the future of our civilization.

I would like to point out that these are just hints at the Message and Mission of which the Christian Church is the champion, namely, the Kingdom of God among men. Every living Church today is frankly fearlessly, and fully proclaiming these principles. Sunday, the one national and official day of rest and recuperation, is claimed by the Church upon which it offers systematically a presentation of the

WHY RISK

a second choice

Tire when

GOOD

YEAR

TIRES

Cost No More?

Why should you gamble with a 2nd, 3rd or 4th choice tire when you can get a Goodyear—the FIRST choice of the people—for the same price?

A nation-wide vote gave Goodyear the preference of 49% of the Canadian people—a preference TWENTY TIMES AS GREAT as for the average tire.

For 17 consecutive years it has been true that More People Ride On Goodyear Tires Than On Any Other Kind.

Carbol's Garage

Kingdom of God, namely the Fatherhood of God, the Brotherhood of Man, and the proper distribution of the world's products for the adequate use of all the human family. This is the basis of the solution for our present day dilemma. At every service some phase of this is presented and explained.

To my mind it is pathetic the way in which this is treated by so many people in our own community. Last summer I personally travelled fifty miles each Sunday and held four services, at which the program of the Kingdom of God was presented, at suitable points covering the whole community. Other ministers were doing similarly here. A very small percentage of each district participated in these services, yet, each Sunday, I passed at least four crowds of people gathered for baseball or some other form of community sport. This Springtime we have added to that actually a public hall in which boxing is the order of the Sunday's procedure.

Now, my appeal is on a similar basis to Mr. Meighen's challenge. The old principles of materialism and jungle competition have failed; on economic, commercial, and social life. It is ours to think these problems through personally, to get together and to establish a more practical system upon the Truth, Love, and Cooperation, which are found at the heart of the Universe. I appeal for a more practical use of our spare time, and particularly that we use the National Rest Day—Sunday—to help put first things first.

Sincerely,
Jas. Wm. Bainbridge,
Viking, Manse.

ITEMS OF LOCAL INTEREST

No matter how well organized a newspaper is, it is impossible for its reporters to gather all the local items of interest—some of your acquaintance has taken a trip or returned from one; you have friends or relatives visiting you; a former citizen has returned on a visit—all of these small incidents, and many more, are of interest to our readers.

As we wish to make this paper a more live, local newspaper, we would greatly appreciate receiving local items from our readers. By informing us of local news, you are doing us an appreciated service, as well as a service to our readers.

sentatives:

Chas. Wilbraham, Irma
W. H. Barton, Jarrow
F. Murray, Minnells
Jas. Loughlin, Viking
A. A. Anderson, Minburn

J. A. Anderson, highway engineer,
in charge of the construction on the
grade from Bruce to Viking, was in
town on Saturday and made arrange-
ments to reside here during the sum-
mer. Work is now going ahead on
the grade south of Bruce, also near
Holden the grade is being repaired.
Preparations are also underway for
the travelling of the highway from
Tofield to Holden, which it is hoped,
will be carried on to Viking this year.
Wainwright is making an effort to
have the grade completed to that
town, and we hope they are success-
ful. This line has been neglected the
past ten years when it comes to gravel-
led highways.

The death occurred in Edmonton on
Friday, May 6th, of Mr. William
John Collisson, at the age of 72 years.
He leaves to mourn his loss one sister
and one brother, Mrs. P. Whelihan,
of Lucan, Ont., and Mr. James T. J.
Collisson, of Edmonton. The funeral
was held on Monday forenoon at St.
Joseph's Cathedral, and the body was
placed to rest in the Edmonton R. C.
cemetery.

The above paragraph appeared in
the Edmonton daily papers on Sat-
urday and records in a very brief
way the passing of one of the earliest
and best known pioneers of the Vik-
ing district, a man who had much to
do with the early history of this
town and district.

Coming from Lucan, Ontario, in
1902 where he was born some 72 years
ago, he took up a homestead about
six miles north of what is now the
town of Viking. Here he opened up
a small store and trading post, which
soon became one of the landmarks of
the district. He freighted most of the
goods for the store from Vegreville,
a distance of 32 miles.

When it was certain that the G. T.
P. railway was to be constructed, he
moved with others to a point about
two miles north of here and started
a small settlement, while another
group opened up a settlement about
where Mr. Streit's place is now. When
the railroad finally came, in 1909, all
buildings in the two settlements
were moved over and soon a new town
was born on the prairies.

The late Mr. Collisson then engaged
in the implement business for a num-
ber of years, later selling this busi-
ness and opening a real estate office.
He early in life took an active inter-
est in politics and was for years a
strong Liberal. In the then new
town of Viking he naturally took part
in civic affairs, and was for several
years a member of the Village Council
and served as Reeve for a number
of terms. He had a most retentive
memory, and for a long time knew
the family history of the majority of
the families in the neighborhood. He
also had a canny way of remembering
names and faces, and his mind was a
storehouse of facts and figures in re-
gard to provincial and dominion af-
fairs. The past ten years his health
failed and he retired from active
participation in business or civic af-
fairs. He was a mild-mannered man,
a good citizen, and a host of friends,
old-timers and pioneers, hear with re-
gret that "Bill" Collisson has passed
away. He never married.

Officials of the Tennis Club are ar-
ranging a Tournament to begin May
24th. It is desired that all members
pay fees by May 21st so that a com-
plete list will be then available for
the draw. The cement court has just
been treated to new lines of white
enamel, and with the cinder court well
rolled, present a pair of courts better
than most towns of this size. Coun-
try players are invited to join the
club. Fees are extremely low.

An active campaign of trees and
shrub planting, and general all around
improvement of lawns and hedges
has been noticed about town during
the past few days. Several vacant
lots are being plowed and used as
gardens. A neat and clean town, full
of trees and gardens is not only a joy
and pride to local citizens, but to vis-
itors and strangers as well.

The Irma Trail Ranger Minstrel
Troupe staged their program at the
Elks Hall last Friday evening. The
boys strutted their stuff in a capable
manner just like "cullud gemmen".
The performance consisted of choruses,
a short play, also a mock trial,
violin selections by Mr. Allan, and a
solo by Miss Walker. The troupe was
in charge of Mr. W. A. Gamble and
numbered about twenty. The ladies
auxiliary served lunch to the visitors
who all seemed to enjoy their visit
to our town. The Sunday School or-
chestra assisted in the entertain-
ment.

We understand that Sid Ross, son
of Mr. and Mrs. Angus Ross, has
purchased a drug store business at
Bonnyville, forty miles east of St.
Paul, Alberta, and will leave to take
charge of the business. We wish Sid
every success in his venture.
The Viking Troubadours played for
a dance at Jarrow last Friday eve-
ning and were accompanied by a large
crowd from here. We understand
their music proved satisfactory and
will play again at Jarrow shortly.

Bruce

Bruce May 11th—At the regular
meeting of the W. I. last Thursday,
plans were made for the ladies visit
to the Bruce cemetery next Saturday
afternoon, to get rid of the gophers
and do some gardening.

At the close of the business ses-
sion, refreshment was served by Mrs.
Parfett and Mrs. Graunke. Mrs.
Graunke was the recipient of a pret-
tily decorated birthday cake bearing
twenty-one lighted candles symbolic
of the occasion.

Mr. and Mrs. H. J. Fredericks and
young son enjoyed a holiday for a
few days in Edmonton last week.

Miss Jeanne Campbell of Montreal,
with tiny "Edwina" is making an ex-
tended visit at the home of her sis-
ters, Mrs. J. Holter.

Charlie Graunke and family moved
to Vegreville on Monday. Charlie is
still in the garage business and says
he will be glad to see his Bruce
friends.

Mrs. A. Willans, accompanied by
her mother, Mrs. Stewart, Mrs. Dud-
ley Haight, and Mr. Waldie Haight,
were week-end visitors in Edmonton.
Mr. George Zeunke, who has bought
the Graunke house and garage, is
now in residence and open for busi-
ness.

Mrs. J. P. Hughes, who is home
from hospital and on the way to
complete recovery, says that in spite
of losing her appendix, she had an
enjoyable visit with friends in Viking
hospital.

Rev. Mr. Luck, district elder of the
Free Methodist church, is the guest
of Rev. Carmichael for the Quarter-
ly meeting.

Last Friday evening the Bruce
Community Club players presented
their play "Captain Racket" in Hol-
den. The play was well received by
Holden people, and there was a good
turnout to the dance that followed.

When
TEETHING
makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective, for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—it is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name:

CASTORIA
CHILDREN CRY FOR IT

WORLD HAPPENINGS BRIEFLY TOLD

The Royal Canadian Mounted Police took over the policing of Prince Edward Island on May 1.

The highway programme of the government on relief road work cost approximately \$9,996,972.

E. C. Cox, of Limerick, Sask., is the winner of the Alexander Laird scholarship in English at Queen's University, it was announced.

More than 4,000 miles of roads in the national highway system of Italy were surfaced with bituminous dressing in the last 12 months.

The Duke of Connaught, Uncle of the King and former Governor-General of Canada, celebrated his 82nd birthday May 1, in his villa on the Riviera.

There is a possibility that Rt. Hon. Stanley Baldwin may not attend the Empire Economic Conference, because of the ill health of Premier Ramsay MacDonald.

The new trade treaty between Canada and New Zealand was given approval by the New Zealand Parliament when the bill ratifying the agreement was given third reading.

A bill to protect the northern Pacific halibut fishery industry, through carrying out a halibut convention between Canada and the United States, has been signed by President Hoover.

As part of its drive against Communism, the Australian Government recently took a number of children from the homes of their Communist parents and placed them in a state home.

An impressive military funeral was held at Ottawa when Inspector Alfred H. Joy, of the Royal Canadian Mounted Police, was buried. He was to have been married the day following his death.

Proves London Doctor Wrong

Someone Estimates Body's Material Worth More Than Dollar

A London doctor says our bodies are worth less than \$1 each for the materials they contain. We could fill a 10-gallon tank with the water in our bodies, make seven bars of soap with the fat, rid one dog of fleas with the sulphur, make a medium-sized nail with the iron, make 2,300 match heads with the phosphorus, make 9,000 lead pencils with the carbon, provided we could extract it. We could produce a dose of salts with the magnesium we contain, and could whitewash a chicken-coop with our own lime—again provided we could extract it.

Bacon and Ham Exports

Canada Is Now Recapturing Large Share Of British Market

That Canada is rapidly moving forward toward the recapturing of her share in the British market for bacon and ham is indicated by the statistics of export of these commodities to Great Britain for the first quarter of the present calendar year in the opinion of Hon. H. H. Stevens. During the three months the total exportation to Great Britain amounted to 56,480,000 lbs. as compared with 15,521,000 lbs. for the corresponding period last year or an increase of 40,659,000 lbs. The percentage of increase is therefore approximately 257 per cent.

"In addition, it is interesting to note," a statement issued by the Minister of Trade and Commerce, says, "that during the months of February and March, Canada exported direct for the first time to the Irish Free State 13,342,000 lbs. of bacon and ham. And the Irish Free State has in the past, been regarded as a competitor with Canada in the British market for these particular products."

Total exports of bacon and ham to all countries, for the first quarter year amounted to 77,526,000 lbs. as compared with only 20,052,000 lbs. in the first three months of 1931, an increase of nearly 400 per cent.

To Great Britain alone during the first three months of 1932, Canada exported more bacon and ham than was exported during the entire 12 months of 1928. During the latter year less than nine per cent. of Britain's imports of bacon were supplied from within the Empire and only 14 per cent. of the ham.

Efforts on the part of the department of trade and commerce, through exhibitions and publicity in Great Britain designed to popularize Canadian products, including bacon and ham, coupled with educational efforts on the part of the department of agriculture to show to the farmer that the standard of quality and continuity of supply are prime requisites in securing and retaining the British market, are regarded by the minister as being largely responsible for the increase in the British demand for Canadian hog products. "The measure of success that has been achieved through advertised quality, says the minister, is apparently now being achieved in the production field."

Low Ocean Fares

Britain Preparing For Greater Invasion Of Tourists From Canada Than Ever Before

Britain is preparing for a greater invasion of tourists from Canada and the United States than ever before, this season. This is due to more determined efforts on the part of the Travel Association of Great Britain and Ireland, who have highly organized their resources for welcoming visitors to the Old Land.

Recent ocean reductions to the extent of 20 per cent. have now made it possible to spend a summer holiday by going to Europe, doing what ever sight-seeing one's time permits, and returning to this country for an all-inclusive charge of less than seven dollars a day, according to the Cunard and Anchor-Deauiden lines. These tours in Europe include the best sight-seeing in the time available, chiefly by motor coach, as well as by rail and steamer. These tours also include visits to the Continent, in France and Belgium especially.

"Modern Third Class" is used for the ocean crossing and to many people whose memories of Third Class date back to many years ago when they first came to Canada, this class offers surprising comfort. Nowadays, in fact, third class is more comfortable than first class was thirty or forty years ago.

Ontario and Quebec provinces expect to reap some benefit from the mass of tourists who pass through Montreal on their way to Europe, as many western Canada and United States visitors spend some time seeing Ottawa, Toronto and Montreal, en route.

Aeroplane Patrol

Royal Canadian Mounted Police Will Use Planes On Both East and West Coasts

Aeroplane are to be used by the Royal Canadian Mounted Police for preventive work on both Atlantic and Pacific coasts. Major-General J. H. McEwen, commissioner of the R.C.M.P., announced that arrangements had been made to employ a considerable number of planes of the Royal Canadian Air Force.

The aircraft will operate in conjunction with vessels of the preventive service, and will be stationed at strategic points on both coasts.

The forests of Quebec cover an area of more than 155,000,000 acres according to recent estimates.

430

IN THIS PRETTY DRESS, DIFFERENCE IS ARRIVED BY USING A PLAIN AND PRINTED FABRIC

Tiny girls love to have free and easy to wear clothes with skirts to swish about.

For those who look best with the fluness falling from the yoke, the narrow tie sash may be omitted.

It's a darling dress. The yoke and applied band at the hem are nautical blue plain batiste. The dress itself is white batiste all covered in blue spots.

It's such a cunning scheme, and youngsters love it.

Dimity prints, voile prints, gingham checks, candy striped cotton broad-cloths and pique are also suitable.

Style No. 430 is designed for sizes 2, 4 and 6 years. Size 4 requires 1 1/2 yards of 35-inch figured with 3/4 yard of 35-inch plain material and 1 1/4 yards of binding.

Price pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Bidding For Tourist Trade

Canada Has Competition From Other Countries and Should Advertise

The French, Germans, Cubans, Italians, Swiss and a dozen other people are actively engaged in competing for the American tourist trade.

This year steamship fares have been reduced to so low a level that Canada must face competition from tourist-resorts across the Atlantic. That is not make a virtue of the Atlantic shipping fares, and attract more tourists to Canada from Europe this summer? Canada needs the tourists, our shipping companies need the passengers.

What Is Fame

What is fame? Upon the walls of the corridor leading to the famous restaurant at Ottawa, there are etchings of all the Prime Ministers of Great Britain. The other day, when two American visitors were walking down this corridor, one of them stopped, pointed his cane at the etching of Disraeli, and knowingly remarked: "Ah, George Arliss."

Tree Planting Car

Canadian Forestry Association Carrying On Good Work In The West

The Tree Planting Car of the Canadian Forestry Association which will commence its fourteenth year of spreading the gospel of tree planting on the prairies left-Montreal, after a thorough overhauling in the Canadian Pacific Railway shops at that point, on April 28 from Ottawa, at Ottawa it will be equipped, and then sent on to Regina, where Alan B. Beaven will take charge. The season of lectures on tree planting will open this month.

Mr. Beaven, who has been seven years with the forestry car, has prepared a real entertaining programme for the farmers, their wives, and children who attend, and is hoping that a new record in the number visiting the car will be established.

With drought conditions in the southern prairies during the past three years, the publicity that has been given the necessity of planting shelter belts and windbreaks, and the belief expressed that trees can and will play an important part, farmers have come to look on the problem of a treeless plain as one needing immediate action. They have learned from the experience of neighbors that mixed farming and tree planting on the prairies go hand in hand, and so efforts have been successful this year in bringing the gospel of tree planting to the people of the province.

The first two months of the tour will be spent in Saskatchewan, and later in the summer the car will travel through Alberta.

Recipes For This Week

(By Ettty Barclay)

COFFEE GINGER COOKIES

1 cup strong, hot coffee.

1 cup molasses.

1 cup brown sugar.

1 cup shortening.

1 tablespoon boiling water.

1 tablespoon ginger.

1 tablespoon cinnamon.

Flour for mixing.

1 teaspoon soda.

Dissolve soda in boiling water and mix into molasses. Pour over the shortening. Add boiling coffee and sugar, and then add seasonings. Add flour until dough is stiff enough to roll. Roll and cut into desired shapes.

ORANGE CANDIED SWEET POTATOES

(Serves 6)

1 cup orange juice.

1/2 teaspoon grated orange rind.

1 cup water.

1/2 cup sugar.

3 tablespoons light corn syrup.

1/2 teaspoon salt.

1/4 cup butter.

6-8 sweet potatoes or yams.

Combine first seven ingredients and pour over peeled uncooked sweet potatoes arranged in casserole or baking dish. Bake covered in moderate oven (375 to 400 degrees Fahrenheit) until tender, 30 to 40 minutes. Baste occasionally. Remove lid last 10 minutes to brown or put under blazer.

VARIATION: Just before removing from oven, add a layer of marshmallows and brown.

Scientist Honored

Director Of Geological Survey Elected As Member Of American Philosophical Society

Election of Dr. W. Collins, director of the geological survey, Department of Mines, Ottawa, to the American Philosophical Society, oldest scientific society in the western hemisphere, was announced at Ottawa. As membership is restricted to outstanding scholars and statesmen who have distinguished themselves by their contributions to the realm of useful knowledge, the honor conferred on Dr. Collins is regarded as a particularly enviable one.

Dr. Collins has had a brilliant career as a geologist. In 1929 he represented the Dominion Government at the International Geological Congress held in South Africa.

A Missouri officer prefers a cow to a saxophone, because in addition to making the same noise the cow gives milk.

Sold everywhere in 25c and 75c red pkgs

CARTER'S PILLS

Photo-Electric Burglar Catcher

Will Also Shoot Or Gas Intruder Says Inventor

Grid glow tubes and photo-electric cells are being brought into play to help catch burglars.

"Dick Dead-Eye" is the name given to an instrument of tubes and cells which has been created by Dr. Phillips Thomas, research engineer of Westinghouse Electric and Manufacturing Company. The apparatus is a network of infra-red or ultra-violet rays thrown over a room to protect property.

The invisible rays are so arranged that interruption by an intruder causes the cells to turn on lights in the room and to sound a loud alarm. They can also be made to give an alarm at the police station, unknown to the intruder.

Simultaneously with the alarm and lights, photographs may be taken by a camera hidden in the wall. The burglar need not know of this, as the infra-red rays may also be utilized for the purpose and the intruder remain in apparent darkness.

Dr. Thomas explained that he had trapped himself several times successfully with the instrument and that the device had proved workable under various conditions. The photographs were ready for distribution within twenty minutes.

Possibilities of "Dick Dead-Eye." Dr. Thomas says, are limitless, as a burglar may be tear-gazed, made senseless by an odorless gas or even shot down by an automatically operated pistol.

Trying New Experiment

Scientists Will Endeavor To Test Atmosphere During Sun's Eclipse

Science will take advantage of a 99-second total eclipse of the sun on August 31, to check up on Professor Albert Einstein's theory of astral light deflection. Elaborate plans for the test, which will utilize all modern equipment possible, with aeroplanes and balloons taking a major part, were announced by Northwestern University, Chicago.

When the moon's shadow wipes out the sun's light for the brief few minutes, balloons carrying aerological instruments, and aeroplanes bearing additional delicate recording equipment, will be ready to meet the occasion over Freyburg, Me.

Freyburg, said Dr. Oliver Justin Lee, Associate Professor of Astronomy, was chosen because forecasts indicate that the most favorable weather conditions will prevail there.

This will be the first time, Dr. Lee said, that science has ever undertaken to determine what happens to atmospheric pressure and temperature during the eclipse. If plans materialize, one of the astral expeditions' planes will climb 30,000 feet where clouds or haze won't interfere.

The full eclipse will sweep down from the Arctic region, across the Province of Quebec and the North-eastern corner of the United States. It will then pass out over the Atlantic at Cape Cod.

Britain Will Lead The Way

Famous London Merchant Says England On March Back To Economic Recovery

"Of course England will lead the world in the march back to economic recovery," declared Gordon Selfridge, famous London merchant, in the course of an interview at Toronto.

"England will be at the head of the parade just as in the past. It is character that does it. We are carrying tremendous burdens. We haven't a bit more money than we had a while back when things were at their worst, but we are on our feet."

Probably Correct

Theological Lecturer: "Yes, my friends, some admire Moses, who instituted the Old Law; some Paul, who spread the New. But, after all, which character in the Bible has had the largest following?"

Will You Make Deal

She (concluding the quarrel, haughtily): I suppose you would like your ring back?

He (politely): I would rather—unless you can find somebody quickly to take over the remaining instalments.

Certain Is Right

Friend: Say, there's a bunch of people outside waiting to be presented to you. Among them is a bishop who says he married you some time ago. Film Actress: Gee! I'm practically certain I never married a bishop.

So large is the collection of cups and trophies owned by the late Sir Thomas Lipton that it will require two months to prepare them for exhibition at the Art Galleries at Kelvingrove, Scotland.

"DON'T BE ROBBED OF YOUTH!"

SAYS RALPH GRAVES

RALPH GRAVES
Scenario Writer

year after year.

"The screen and stage stars usually keep that lovely irresistible glow that youngsters have. And lots of other women, these days, seem to have learned their complexion secret."

"Above all, guard complexion beauty," the stars will advise you. "Use gentle, soothing Lux Toilet Soap regularly, as we do!"

Actresses the world over use fragrant, delicately white Lux Toilet Soap to keep their complexion always exquisite. In Hollywood, where 686 of the 694 important actresses are devoted to it, this soap is official in all the great film studios.

You are sure to love the way it cares for your skin! The areas of dollar-a-ounce French soap for just 10c.

Flood Sufferers In China Are Starving

Matter Brought Before League Of Nations Manchurian Commission

News of how 6,000,000 Chinese flood sufferers in the Hwei River valley north of Anhwei are existing chiefly on grass and bark, while some are being sold in a human market, was brought to the attention of the League of Nations Manchurian Commission at Peking.

The affected area was estimated at twice the size of New York State.

The chief supply of food has been relief wheat from the United States. Following the trouble at Shanghai between the Chinese and Japanese and inconvenient transportation conditions only 4,000 tons of wheat thus far have reached the Hwei Valley, said Shaouu Peter Chuan, superintendent of the National Flood Relief Commission for the North Anhwei area.

It will be late in June before the wheat crop will have matured and the problem is to feed the starving millions, while the authorities do everything possible to improve transportation. Meanwhile, the refugees have been eating grass, weeds, sprouts and the bark of trees.

Relief workers reported to Chuan that the market price for the sale of humans is \$1 in Chinese money, or about twenty cents in American, for each year of the person's age. A ten-year-old child sells for \$10 or about \$2 in gold, the rate rising \$1 a year until the age of 25, when the price begins to recede.

Soap Used Without Water

A waterless soap has been developed by a chemist attached to a joint concern in Kansas City. The soap, in the form of a paste, is said to be harmless to the skin and even possesses healing and antiseptic qualities. It lathers freely without water and absorbs all dirt.

How Earth Is Divided

Scientists estimate that 40 per cent. of the land area of the earth is desert, 30 per cent. is productive, and 30 per cent. is poor grazing land, forest, high mountains and waste. There is no agreement as to the exact portion that is inhabitable.

Argentina has only about 7,000 plants using steam for power.

Porto Rico Imported \$1,000,000 worth of jute bags in 1931.

THE HOUSE OF DREAMS-COME-TRUE

— BY —
MARGARET FEDELER

Author of
"The Splendid Folly," "The Hermit
Of Far Shore,"
Hodder & Stoughton, Ltd., London.

CHAPTER XX.—Continued.

She paused, and the liquid in the black pot over the fire seethed up suddenly and filled the silence with its chuckling and gurgling, so that to Jean it seemed like the sound of some hidden malevolence chortling defiance at her.

The old woman clutched her hand a little tighter, turning the palm so that the light from the tiny window fell more directly upon it.

"There's a cat's paw in 'ee, me dear," she resumed in the same sing-song voice as before. "I can see it so plain as plain. But you won't never live there 'til the one you love, though you're hopin' to. I see ruin and devastation all around it, and the sky as red as bird above it."

She released Jean's hand slowly, and her curiously bright eyes fastened upon Tormarin.

There is NO ODOR from FISH

or from Vegetables cooked in CANAPAR

Boiled, or steamed, fish comes out firm and solid, swimming in its own juice, when you seal it up in Canapar Cookery Parchment. No fishy odor. No gummy steamer or saucepan to clean out afterwards.

And vegetables are simply delicious. Using Canapar you can cook three at once in the same pot over one burner turned low. Canapar acts on them as it does on fish. Retains all the mineral salts and flavor. Fat and juices from meat won't burn if you line your roasting pan with Canapar. No pan-scrapping afterwards.

Canapar only costs 25 cents for a large envelope. You can use each sheet repeatedly because it won't absorb odors. Makes a perfect dish cloth because it is silky, strong, and doesn't spread lint.

Special Offer

CANAPAR is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box. Most grocers, druggists and department stores have Canapar on sale, but if yours hasn't send coupon to the makers and we'll give you a new and unique book entitled "Leftovers," containing one hundred recipes as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.
Enclosed find 25¢ for which please send me one of the above packages of CANAPAR COOKERY PARCHMENT and your 100 recipes for "Leftovers."

W. N. U. 1941

looked at Burke now, in astonishment.

"You certainly are not," she replied quickly. "I shall go back as I came—in the car."

"Quite impossible. It's broken down. They rashly brought on the lunch hampers in it, across that God-forsaken bit of moor road—with disastrous consequences to the car's internals. So that you and Tormarin have got to be sorted into other conveyances. And I've undertaken to get you home."

Jean's face fell a little. Throughout the drive up to the Moor Blaise had seemed less remote and more like his old self than at any other time since their quarrel, and she could guess that this arrangement of Burke's was hardly likely to conduce towards the continuance of the new peace.

"How will Blaise get home?" she asked.

"They can squeeze him into her car, Judy says. It'll be a tight fit, but he can cling on by his eyelashes somehow."

"I think it would be a better arrangement if you drove Blaise and I took extra in the car. There isn't really room for one."

"There wouldn't be two. You would drive Blaise."

"Pardon me. I should do nothing of the sort."

"Do you mean?"—incredulously—"that you would refuse?"

"Oh, I should invent an armoured-plating reason. A broken spring in the dog-cart or something. But I do mean that if I don't drive you, I drive no one."

Jean looked at him vexedly.

"Well," she said uncertainly, "we can't have a fuss at a picnic."

"No," agreed Burke. "So I'm afraid you'll have to give in."

Jean rather thought so, too. There didn't seem any way out of it. She knew that Burke was perfectly capable, under cover of some supposed mishap to his trap, of throwing the whole party into confusion and difficulty, rather than relinquish his intention.

"Oh, very well," she yielded at last, resignedly. "Have your own way, you obstinate man."

"I intend to," he replied coolly. "Now—and always."

CHAPTER XXI.

Divers Happenings

"I don't think I want any champagne," said Claire, smilingly, as Nick filled a glass and handed it to her. "Being utterly free like this produces much the same effect. I feel drunk, Nick—drunk with happiness. Oh, why can't I be always free—"

She broke abruptly in her speech, her face whitening, and stared past Nick with dilated eyes. Her lips remained parted, just as when she had ceased speaking, and the breath came between them unevenly.

Nick followed the direction of her glance. But he could see nothing to account for her suddenly stricken expression of dismay. A man in chauffeur's livery, vaguely familiar to him, was approaching, and it was upon him that Claire's eyes were fixed in a sick gaze of apprehension. It reminded Nick of the look of a wounded bird, incapable of flight, as it watches the approach of a hungry cat.

"What is it?" he asked quickly.

Sour STOMACH

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective yet harmless. It has been the standard antacid for 50 years. One spoonful will neutralize at once many times its volume in acid. It's the right way, the quick, pleasant and efficient way to tell all the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine.

The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior toothpaste that safeguards against acid-mouth. (Made in Canada.)

Down in Weight and Very Pale

Mrs. Beare Thankful For Way in Which Dr. Williams' Pink Pills Helped Her Back to Health

"I can truly recommend Dr. Williams' Pink Pills, for they did wonders for me," writes Mrs. Mable R. Beare, New Westminster, B.C.

"After a long and very trying illness, I was down to 90 lbs. in weight. I could not eat a hearty meal. In fact, I have had to go away from the table hungry, from a dinner I dared not touch. I was also very pale. I had often read about Dr. Williams' Pink Pills, so I thought I would give them a trial. I soon found I was able to eat with any one, and I began to look brighter. My weight came up to 118 lbs. and my lips and cheeks had lots of color. I am more than thankful I ever took Dr. Williams' Pink Pills, and I only hope others will try them. Dr. Williams' Pink Pills actually create an abundance of new red blood, which is the reason they have given new vitality and strength to thousands of such nervously exhausted women. Equally helpful for growing girls. Try them. At your druggist's in the new glass container, 50c.

"What's the matter? For God's sake don't look like that, Claire!" Slowly, with difficulty, she wrenched her eyes away from that sleek, conventional figure in the dark green livery.

"Don't you see who it is?" she asked in a harsh, dry whisper.

Before Nick could answer, the man had made his way to Claire's side and paused respectfully.

(To Be Continued.)

THE RHYMING OPTIMIST

By Aline Michaelis

THE RICHEST HOUSE

This little house is very bare And very poor and old, Its tenants live on meagre fare And suffer-cold.

Sometimes a passer feels concern For those who dwell inside, And wonders why he does not yearn For wealth denied.

Oh, eyes that stare and do not see, Oh, heart that holds no dreams, Yours is the house of poverty And where no joy gleams!

This little house is very cheap And very dim and small; Yet here peace reigns and happy sleep And faith cheers all.

And here dwell love and song and mirth And every kindly grace; Perhaps the richest house on Earth Is this poor place!

Mothers Value This Oil—Mothers who know how suddenly cramp may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Moslem Girl Becomes Pilot

Abandons Harem To Win Fame As Soviet Flyer

Less than five years ago Lella Mamed-Bekova, a Moslem girl in Baku, was wearing the horse-hair veil prescribed for wives, and living in the harem of an old-fashioned husband several times her age. Today Lella wears pilots' togs, flies an airplane and teaches at the aviation school. She is known throughout the Soviet Republic of Azerbaijan as the first woman flyer in that region.

Her life's story is being recounted in the journals of this country as an example of the strides being made by Eastern women. Their transition from medieval conditions to the most modern type of life is truly one of the most dramatic phases of the Soviet revolution.

Lella is only twenty-two. She was seventeen when she discarded her veil and abandoned the harem into which she had been sold at thirteen. She is the mother of two children. For months after she removed the veil Lella remained indoors, ashamed to show her face. By now unveiling is widespread, but at that time it was still an act calling for courage; many women were murdered by their own families for such conduct.

Every one in Baku knows Lella Mamed-Bekova and can point out the house where she lives. Lella is a symbol of pride to the new type of women in the Soviet Near East—and an object of hatred to those who adhere to the ways of their mothers.

Douglas' Egyptian Liniment should be in every household. Stops bleeding at once, cauterizes wounds and prevents blood poisoning. Keeps away inflammation. Removes poor flesh.

New York state contains 49,204 square miles.

What Might Happen

If the Glaciers Should Melt, Ocean Waters Would Deluge the Earth

Just raise the average temperature of the earth two or three degrees and you can bid good-bye to all the big cities on earth. Glaciers will melt and oceans will rise, and—

But let the weather man get in on this. Dr. William J. Humphreys of the United States weather bureau, took a lot of evidence to make up the painstaking case, presented to the American Meteorological Society, that the earth's glaciers, if melted, would raise the ocean level 150 feet, and that the aforementioned slight increase in warmth would do the melting.

One could still be dry above the 15th floor level in cities with skyscrapers, but all about would be the bounding waves. London, Paris, New York, Montreal, Philadelphia, Los Angeles, Washington, Shanghai—all gone.

By way of cheer, Dr. Humphreys pictured the world as delicately balanced between this catastrophe and the equally cheerless prospect of another glacial period. It would take but a drop of five or six degrees in the earth to bring back the ice age, with Canada and the United States as far south as Kentucky and Iowa one vast skating rink.

But skating enthusiasts needn't cheer. Dr. Humphreys said the earth is gradually growing warmer and the next ice age, although forecast, is some millions of years off. So, probably, is the glacier melting period.

ACID STOMACH IS DANGEROUS

Suffers From Indigestion CUT THIS OUT

"Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc., are caused nine times in ten by chronic acid stomach," says a well known authority.

Burning hydrochloric acid develops in the stomach as an alarming rate. The acid irritates and inflames the delicate stomach lining and often leads to gastritis or stomach ulcers. Don't do an acid stomach, with peptic or artificial digestants that only give temporary relief from pain by driving the sour fermenting food out of the stomach into the intestine.

Instead, neutralize or sweeten your acid stomach after meals with a little Bismarck's Magnesia, and not only will pain vanish but your meals will digest normally. There is nothing better than Bismarck's Magnesia to sweeten and settle an acid stomach. Your stomach acts and feels fine in just a few minutes. Bismarck's Magnesia can be obtained from any reliable druggist in either powder or tablet form. It is safe, reliable, cathartic and is not at all expensive.

Idle Money Earns Nothing

When Waterloo Bridge in London, England was built 120 years ago several sovereigns were buried in a block of granite forming part of it. When this bridge is pulled down for these sovereigns will be worth 27s. 9d. when recovered, but had they been invested each of them would now be worth about 700 pounds.

The last session of U.S. congress saw the introduction of 6,041 bills.

SHE HAD TO CRAWL TO BED

One stair at a time—on her hands and knees—that was how she had to do it. And when she did get to bed, her troubles were not over.

"Twelve months ago I could not sleep on account of the terrible pains in my knees, and I might say in all my joints. At night I could only crawl up to bed, one stair at a time. But since taking Kruschen Salts regularly, I have entirely lost all pains and stiffness, and, if needed, could now run upstairs two at a time. In fact, I feel 10 years younger. I shall never be without Kruschen Salts."—Mrs. A. E. D.

Do you realize what causes rheumatism? Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs. Kruschen Salts can always be counted upon to clear those painful crystals from the system. The six salts in Kruschen are bound to dissolve away all traces of uric acid. And more! They ensure such perfect internal regularity that no such body poisons as uric acid are ever able to accumulate again. Prove this for yourself by buying a bottle of Kruschen.

Little Helps For This Week

"And now I exhort you to be of good cheer."—Acts xxvii. 22.

Make me as one that casteth not by day.

A dreary shadow, but reflecting any One little beam, loved, warmed, and Golden caught.

From the bright sun that lights our daily way.

You find yourself refreshed by the presence of cheerful people; why not make earnest efforts to confer that pleasure on others? You will find half the battle is gained if you will never allow yourself to say anything gloomy.—Lydia M. Child.

Western Enthusiasm Completed Bay Route

Now Up To People To Support Faith With Works

The people of western Canada should heed what Dr. Manion has said. It was the enthusiasm of the western provinces that carried the Hudson Bay route to completion. The people of the west should support their faith with works. Once it is certain that there will be ships at Churchill it should be made certain that grain will be there if it is moving anywhere—and no influence which the C.N.R. and the C.P.R. and the port of Montreal can exert should be allowed to prevent the sending of cargoes by way of Hudson's Bay.—Toronto Star.

Worms are encouraged by morbid condition of the stomach and bowels, and so subsist. Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

The largest lobster cannery in the world is stated to be one at Pictou, Nova Scotia.

Main Street

Mr. and Mrs. J. Fletcher motored to Edmonton Tuesday.

Mrs. S. Johnson has been on the sick list this week.

Mrs. C. Lindquist, south of Jarrow, has been laid up with a sprained ankle.

A daughter arrived at the home of Mr. and Mrs. J. Bovenkamp, south of Jarrow, Monday.

Mrs. McCauley, of Edmonton has been visiting her daughter Mrs. J. C. McLean.

Mr. J. W. Milburn, returned Wednesday after spending the winter with his brother in Ontario.

The Junior room of the public school has been closed, Miss Stewart, the teacher, being too ill to teach.

An afternoon tea and sale of home cooking will be held at the home of Mrs. Pryce Jones on May 28th from 3 to 5.30.

Miss Mary Gamble of Camrose, returned Sunday after spending a few days visiting her brother Mr. A. Gamble and other friends at Irma.

Rev. Bryce Innes, returned from Ontario, Wednesday to look after his farming interests in the Ross district.

Miss Maud Smallwood, graduate nurse, arrived from Edmonton, Tuesday night to take care of her mother, Mrs. R. D. Smallwood, who has been indisposed.

Dr. Greenberg, was called to Jarrow last Saturday to give assistance to James L. Morgan, son of the garage man when he suffered with a fractured arm caused by a car tacking.

The Irma Rebekah Lodge No. 87 are having a Lawn Social on Wednesday afternoon, June 15th at the home of Mr. and Mrs. Martin Knudson. Everybody welcome.

The Irma I. O. O. F. and Rebekah Lodges met Sunday and attended divine service. A number of visiting brethren and sisters from Wainwright also attended.

Ladies Aid met at the home of Mrs. H. W. Love, Thursday afternoon. The Aid have decided to hold a lawn social, at the home of Mr. and Mrs. R. D. Smallwood, Wednesday afternoon, June 1st.

Annette McMillan, of the Alma Mater School, took second prize in the solo competition for Grades 5 and 6, at the Musical Convention held at Wainwright last Friday. Schools were represented from as far east as Chauvin, and Alma Mater is to be congratulated in having a pupil who was able to do so well.

A sad accident occurred at the Jas. Kennedy farm north west of the town last Sunday when Miss Luella Taron, who was working for the Kennedy's was thrown from her horse fracturing her skull. Dr. Greenberg was called and took the patient to Wainwright hospital where everything possible was done. The young lady passed away Wednesday morning without gaining consciousness.

FARM YOUNG PEOPLE'S WEEK JUNE 2nd to 8th.

Between 150 and 200 farm boys and girls have been spending a week at the University in June every year since 1918. Many of these boys and girls who visited the University for the first time at a Farm Young People's Conference, have returned to take the regular degree courses later on. Others have established a contact with the University which has proven very valuable to them in their farming occupation.

Into one short week is crowded a wealth of new experiences, inspiration, education and good fellowship. It will be well worth while to spend the week of June 2nd to 8th at the University.

FOREST DESTRUCTION IN ALBERTA SERIOUS

Considered from the standpoint of destruction of forest resources, the fire season of 1931, reports the Alberta Department of Lands and Mines was probably the most disastrous on record. Weather conditions prevailing during the winter of 1930-31 were such that fires started readily and burnt into the ground, thus providing a start for destructive fires in the spring. On the forests of the east slope of the Rocky Mountains it was necessary to fight fires on several occasions during the winter.

As a result of winter conditions and of weather and ground conditions in the spring whereby fires spread rapidly, fires set for the purpose of clearing land and fires from other causes, assumed dangerous proportions and resulted in an enormous loss of forest resources and of private property. In addition the productivity of the soil was greatly damaged.

An examination of fire causes, state officials in charge of forest preservation, leaves no doubt as to the responsibility of individuals and indicates that little or no thought was given to the results. In many instances the danger to life and to the destruction of public and private property was entirely overlooked. Improvements on neighboring lands were destroyed with no thought of the importance of individual welfare in the success of the community. In order to clear comparatively small areas, fires were indiscriminately set which destroyed large areas of important forest cover, which areas in a great many instances would at a later date contribute in no small way to the welfare of the individual and the community.

Settlers' fires dealt with by the forest reserve number 136, being 21.86 per cent of the total fires dealt with. The statement of the department concludes:

"Campers, which includes all forest travellers, contributed to the destruction in no small way. Carelessness, laziness and ignorance no doubt explains why 147 fires are known to have originated with campers. It is difficult to understand why people who go to the forest for recreation or who obtain their livelihood from the forest, should be guilty of such carelessness. In the province of Alberta are found conditions more favorable to outdoor recreation than in many countries. There is an abundance of game birds, fish and big game. These, however, cannot exist if forest destruction continues at the rate of 1931."
